

Periodontal Disease

[Click here for the definition of periodontal disease.](#) Keep an eye out for the following signs of gum disease:

1. Gums that bleed when you brush
2. Red, swollen or tender gums
3. Gums that have pulled away from your teeth
4. Bad breath that doesn't go away
5. Pus between your teeth and gums
6. A change in the way your teeth fit together when you bite
7. A change in the fit of partial dentures

**You can have periodontal disease and not notice any warning signs so it is important to have regular dental checkups*
